MICRODERMABRASION

(45 mins - \$120 on its own with mask, \$50 added to facial)

Microdermabrasion creates microscopic abrasion in your epidermis to remove the thicker, uneven outer layer to stimulate your skin to send new collagen to the surface.

DERMAPLANING

(45 mins - \$120 on its own with mask, \$50 as an add on) \$75

Express Dermaplaine

Dermaplaning is a noninvasive, low risk skin care procedure which results in the exfoliation of the dead skin cells and removes Vellus facial hair to improve overall appearance of the skin. Products penetrate deeper into the dermis, brighten a dull complexion to stimulate new collagen, make the face look smoother, slimmer and more defined.

MICROCHANNEL (60 mins)

Single treatment: \$295

Series of 3: \$285

Series of 5: \$1,375

Similar to microneedling, microchanneling is a non-invasive procedure designed to stimulate your body's natural ability to generate collagen, elastin and other building blocks of healthy skin. By stimulating the outermost layers of the skin, microchanneling can help set in motion your body's natural process of increasing collagen causing communication levels in the skin to facilitate thicker, younger looking skin with minimal downtime.

HYDRAFACIAL

HydraFacial is a facial treatment using a patented device to deliver cleansing, exfoliation, extraction and hydration to the face. This system uses a vortex swirling action to deliver hydration and to remove dead skin, dirt, debris, and impurities while cleaning and soothing your skin. It is performed via device rather than by hand for deeper penetration and longer lasting results. A HydraFacial includes 4 facial treatments rolled into one session: cleansing and exfoliating, gentle chemical peel, vacuum suction extraction and hydration serum.

Signature Hydrafacial 30 mins single treatment price \$195

Deluxe Hydrafacial 45 mins single treatment price \$275

Platinum Hydrafacial 60 mins single treatment price \$325

PEELING

BioRevitalization Peel PRX

PRX is made up of TCA (trichloroacetic Acid) and Hydrogen peroxide (H2O2). This treatment builds collagen and elastin, causing your skin to look younger, tighter, brighter and more radiant. This procedure can also correct discoloration, smooth wrinkles and plump skin.
